EXPERIENCE

Google Developer Student Club, DBIT— ML / AI Lead

SEPTEMBER 2022 - PRESENT

Conducted several events and instructed how ML works and its implementation to the community members

PROJECTS

AI Chatbot for Mental Healthcare

- Acts as virtual psychiatrist
- Solves the problem of people who are not willing to consult
- Built using CNN (Convolutional neural network)
- Repo of this project- [here](#)

Payment System and Digital Interface using CBDC

- Next generation of Payment System which is based on new concept that is Central Bank Backed Digital Currency
- Facilitates payment and loan using ML algorithm
- Repo for this project - [here](#)

Blind Spectacles using OpenCV (IoT Project)

- Helps Blind People to travel independently
- Contains object avoiding mechanism and gps for navigation
- Facial recognition with surrounding analysis
- Can control other devices like fan using voice

EDUCATION

Don Bosco Institute of Technology, Bangalore — B-Tech

DECEMBER 2022 - AUGUST 2024

Current CGPA - **9.21**

Siddhartha Pre-University Collage, Bhatkal — Class 12

JUNE 2018 - MARCH 2020

Grade - **92%**

Anand Ashram Convent High School, Bhatkal — Class 10

JUNE 2015 - APRIL 2018

Grade - **93.92%**

SKILLS

Python

Public Speaking

Machine Learning

Data Science

MySQL

ReactJS

NodeJS and Express JS

Java

RELEVANT COURSE

Machine Learning A-Z

Complete Web Development

Bootcamp

Python 100 Days of Code

Introduction to Git and

GitHub

CODING PROFILE

[Leetcode](#)

[Hackerrank](#)

AWARDS

South Indian Science Fair

2018

(National Level Science
Exhibition)

PhaseShift 2022 by BMSCE

(Coding Competition)

Runner-ups
